NAME OF PROVIDER

# Floor and Escape Plan

Use this grid to draw a floor plan. Show the whole house with two exits from each room. In buildings with three or more dwelling units, enclosed exit stairs must be indicated.

## Sample floor plan – A blueprint to save your life

Symbols to be used:

Normal exit route: **Black arrow** →

Emergency exit route: **Red arrow** →

Doors: \_\_\_\_/\_\_\_\_

Porches: \_\_\_\_\_

Windows: **W**

<b>Fire and police emergencies</b>

	Smoke detector locations:
	Basement or lower level _____
	Main floor or upper level _____
	Second floor _____

For additional space, use reverse side

Each square = 1 foot

Each square = 1 foot

## Sample Escape Plan

Use the Floor and Escape Plan grid to draw your escape plan (you can use multiple pages if needed).

The escape plan needs to have doors, windows, and main exits clearly identified on each level used for daycare. The escape routes must be marked clearly so that each person knows the plan of escape and where to meet in the event of an emergency. Please see the example below. If updates need to be made to your current escape plan, please submit your updated plan to your licenser.
