

What is “THE RULE”?

Staying Informed of Regulations

Licensed Child Care Providers often hear mention of “the rule.” “The rule” refers to rule #2 of the set of state rules and laws governing family child care. Licensed child care providers are professionals and independent business people. Knowing the regulations that pertain to your business is an essential responsibility, enabling you to remain in compliance with all the latest standards. The following identified Minnesota legislation affects licensed family child care providers. To obtain the most current versions of these regulations, go to the identified websites. *This list is NOT all-inclusive.

- **“Rule 2,” or MN Administrative Rules, Chapter 9502, Parts 9502.0300 - 9502.0445.** This has been the long-standing rule for Family Child Care. More recently, other legislation has superseded the original rules regulating child care. It sets licensing standards for family child care and group family child care homes to provide for the protection, proper care, health, safety and development of children enrolled in child care.
